

ASHBURN : VIRGINIA

THE WORLD'S MOST TECHNOLOGICALLY ADVANCED DATA CENTER

RagingWire's east coast data center facility is located in Ashburn, Virginia, one of the world's busiest telecommunications hubs. It features one of the most innovative data center architectures in the industry and patented RagingWire technology, all backed by a 100% uptime SLA and a 24x7 staff of highly trained professionals that will take care of your critical IT infrastructure so you can focus on your IT applications.

- 100% uptime SLA for critical facility infrastructure
- 28.4 MW of critical IT load at a 2N+2 level of redundancy with a highly intelligent, self-healing infrastructure management system
- Carrier neutral with multiple, diverse connectivity options
- 300,000 sq. ft. campus (VA1 and VA2)

Why RagingWire?

The Smart Choice in Data Centers™

RagingWire's highly customizable colocation solutions are designed to meet the fast-paced demands of your business' mission critical IT systems. Our next generation, patented critical infrastructure and immense network connectivity options allow flexible and fast deployment of your secure, private caged environment or cabinet.

100% Availability with 2N+2 Redundancy

RagingWire's 100% uptime SLA is unique in the data center industry. Our patented infrastructure systems go beyond industry-standard N+1 redundancy to an impenetrable 2N+2 redundancy, with the ability to support ultra high power densities up to 22 kW per rack.

Location

RagingWire Data Centers operates nearly one million square feet of data center space on both coasts of the United States. Our east coast data center campus is located in Ashburn, Virginia, one of the busiest telecommunications hubs in the United States and is a short distance from Washington DC and area airports.

Carrier Neutral

RagingWire exclusively operates carrier neutral data centers, because we believe that when it comes to choosing your telecommunications provider, choice is everything. And we give you lots of freedom to choose – both our Sacramento and Ashburn data center campuses have a multitude of local, regional, and national fiber providers built in to our facilities.

About RagingWire Data Centers

RagingWire Data Centers designs, builds, and operates mission critical data centers that deliver 100% availability, high-density power, and a best-in-class customer experience. The company has nearly 1,000,000 square feet of data center space in the United States delivering 80 megawatts of power, and an additional 3,000,000 square feet currently under development.

As an NTT Communications group company, RagingWire is one of the most financially strong companies in the data center industry and among the largest wholesale colocation providers in the world. RagingWire along with NTT Communications and its affiliates operate a global network of 140 data centers as part of the Nexcenter™ brand.

With customizable colocation environments and flexible designs for wholesale and retail buyers, a carrier neutral philosophy, extensive compliance, and the highest customer loyalty in the industry as measured by the Net Promoter Score®, RagingWire meets the needs of top internet, enterprise, and government organizations. The company's patented power delivery systems and EPA ENERGY STAR rated facilities position RagingWire as an industry leader in reliability and efficiency.

FACILITIES

- Ashburn, Virginia (VA1): 150,000 sq. ft.
- Ashburn, Virginia (VA2): 140,000 sq. ft.
- Ashburn, Virginia (VA3): 2 million sq. ft.
- Close to Washington DC and multiple airports

POWER

- Critical IT load: VA1–14.4 MW, VA2–14 MW
- Scalable up to 22 kW per rack
- Concurrently maintainable and fault tolerant
- Highly intelligent and self-healing infrastructure management system integrated into Operations Control Center monitoring system

COOLING

- Scalable beyond 260 watts per square foot
- 100% availability
- Centralized industrial chiller plant with automatic controls to maximize operating efficiency and PUE
- Computer room air handlers at N+2 redundancy or better

SECURITY

- In-house security staff
- Multifactor identification and multi-level security zones
- Digital pan-tilt-zoom cameras that monitor all data center secure areas, parking lots, entrances and roof monitored at all times by 24x7x365 security staff
