MASSIVE WHOLESALE DATA CENTER CAMPUS IN ASHBURN, VA

The Ashburn VA3 Data Center represents phase one of RagingWire’s massive Ashburn Data Center Campus development which can accommodate seven buildings on the 78 acre site in Ashburn. The VA3 Data Center with 245,000 square feet of space and 16 megawatts of power is now leasing.

The combination of the VA1, VA2, and VA3 data centers in Ashburn, VA creates a data center footprint of over a half million square feet of space and 44.4 megawatts of power. VA3 is interconnected with other RagingWire campuses across the country including the CA1, CA2, and CA3 data centers in Northern California and TX1 Data Center in Dallas, Texas. VA3 is also a part of the global data center platform of 140 data centers in 19 countries worldwide operated under the Nexcenter™ brand.

VA3 DATA CENTER FEATURES

- 245,000 sq. ft. data center space
- 16MW of critical IT load
- Customizable private suites available in 2MW and 4MW increments
- Dedicated infrastructure options including patented 2N+2, N+1 and N+2 configurations
- High-security gated entrance with anti-climb perimeter fence
- Class-A customer office space
- Fiber-connected with VA1 and VA2 data centers
- 24x7 in-house security staff, shipping and receiving
- Carrier-neutral facility with three diverse fiber entrances. Many Tier 1 carrier options, plus access to many major telecom and cloud providers
- Interconnected with other RagingWire campuses across the country
- World-class customer amenities including lounges, breakroom, a game room, a gym, locker rooms and showers, and conference rooms
RAGINGWIRE AND THE NTT COMMUNICATIONS FAMILY OF COMPANIES

Headquartered in Tokyo, Japan, NTT Communications Corporation was founded in 1999 as the wholly owned subsidiary of Nippon Telegraph and Telephone Corporation (NTT), one of the world's largest telecommunications companies. NTT Communications provides consultancy, architecture, security, and cloud services to optimize the information and communications technology (ICT) environments of enterprises.

In 2014, RagingWire joined the NTT Communications family of companies and was named the data center platform for NTT Communications in the United States. In addition, RagingWire became affiliated with over 140 NTT Communications’ data centers worldwide, which include facilities from Netmagic Solutions Pvt. Ltd. in India, Gyrion Internet Ltd. in the United Kingdom, and e-shelter facility services GmbH in Germany.

The result is a global data center platform that is one of the largest in the world and delivers exceptional availability, connectivity, and service.
